Welcome:

Thank you for choosing drive**Johnson's**. Here are 3 great reasons why learning to drive with drive**Johnson's** is a smart choice:

- Providing learner drivers with an excellent service since 2005.
- A minimum rating of 4.5 stars out of 5 across all major review platforms.
- drive**Johnson's** is the go-to place to pass first time, which is why we are chosen by celebrities including footballers, Hollywood actors, singers, Formula One drivers and more.

Driving is a skill for life:

Learning to drive is a skill for life. For most learner drivers, obtaining a driving licence will be one of the most used qualifications they will get in their lifetime.

According to Government statistics, approximately 5 people die every day on UK roads with even more seriously injured. All deaths or injuries can be prevented if you are not only taught correctly but also if you obey the rules of the road.

At drive**Johnson's**, we pride ourselves on our extremely high first time pass rate and our excellent reviews.

Your driving instructor's main objective will be to teach you how to drive safely at a pace that suits your goals and learning style.

Booking your driving test:

Please do not book your driving test without consulting your driving instructor first.

If you book your driving test without consulting your instructor, you may be disappointed to find out they have prior arrangements and they cannot take you for test. To avoid this disappointment, please consult your allocated instructor when it comes to taking your test.

About your progress record:

As you can see on the following pages, there are a number of skills to learn when it comes to driving and passing your test. Throughout your learning to drive experience with drive**Johnson's**, your instructor will record your progress.

Many of the boxes can be ticked in one lesson.

If you are a beginner, you will start most new subjects in the red and, as you improve, your instructor will move you closer to the green boxes. You will be able to clearly see when you are test ready when most of your boxes are being ticked in the dark green areas.

What the different colours mean:

1-2: Complete Beginner – You require full instruction from your instructor

3-4: Beginner – You require prompts from your instructor but not full instruction

5-7: You benefit from a combination of prompting and questions

8-9: You require the occasional prompt by question and when asked you usually know the answer

10-11: You can do this independently and rarely get this wrong

12-13: Completely independent - When asked reflective questions on the topic you know most of the answers

14-15: Under mock test conditions, you demonstrate satisfactory driving test standard 95-99% of the time

16: Fully competent and you shouldn't fall short in this area on your driving test
